

Access Your Visible Body Course Through Your LMS

This article is for students whose school or instructor assigned Courseware through a learning management system (LMS). Follow these steps to access your Courseware account through your LMS.

Login

You should have automatic access to all Visible Body assignment links as well as the Visible Body (LTI 1.3) homepage in your LMS. However, students who have accessed Visible Body in the past may be asked to sign in when accessing the homepage for the first time. You will only have to do this once, and if you can't access your old account you will be given an option to proceed with the account we've created for you.

Access My Apps

If you have never created a Visible Body account before then we went ahead and created one for you! Follow these steps to add a password to your account so you can log into and access the VB Suite app.

1. Select "Get My Apps" or "Finish Setting Up" on your Visible Body (LTI 1.3) homepage.
 - a. If you see "My Apps" instead of "Get My Apps" then you already have a password associated with your account. If you're having trouble remembering or resetting your password, reach out to us [here](#).
2. You should see the email associated with this account displayed. Use this as your Visible Body login. Select "Finish Setting Up" and an email will be sent to that email address with the process to create a password.
3. Follow the instructions in the email to create your password.

If you want to access Courseware outside of your LMS you can use the Courseware credentials that you created and log in at <https://courseware.visiblebody.com> or select "Go To Courseware" in your Visible Body (LTI 1.3) homepage.

You can also access our leading Anatomy and Biology app outside of your LMS! Download Visible Body Suite from the Apple or Google Play store. When prompted to sign in, use the same

email and password you created to get your apps within your LMS. If you never created one or don't remember it, start with your LMS email and you can request an email with the process to set up or change your Visible Body password.
